Subtracting Mixed Numbers Four-In-A-Row

Choose a coloured pencil. You partner should choose a different colour.

Choose a square and solve the problem inside. Your partner should check your work. If you are correct, colour the square with your colour. Then it is your partner's turn. The winner is the first person to colour four in a row!

You can write your answer as an improper fraction or as a mixed number fraction, in its simplest form.
