

BRAIN BUILDER – Anglo-Saxon life

Sent out: Thursday 26th February

Due back: Thursday 19th March

In History this term, we are looking at the Anglo-Saxons and the Invasion of Britain. Your brain builder project should link to this. Suggestions of what you could do are listed below.

- Create a diary entry of day in the life of an Anglo-Saxon or Viking, living during the invasion.
- Plot the invasion of Britian onto a map. Where did certain settlements start and where did they invade?
- Create a time line of the Invasion of Britian, including key dates and key events.
- Research King Alfred, and create a fact file about him.
- Map out an Anglo-Saxon or Viking village, thinking about how they would be laid out, what materials houses and huts would be made from etc.
