

Welcome to Classroom Worship with iSingPOP

We are delighted that you are using the iSingPOP Classroom Worship resources in your school. We hope they are a blessing to you and your children during this time.

Each session is designed to be an easy-to-use Collective Worship resource that will enhance your children's understanding of the Christian faith and its application to their lives. Each session is approximately 20 minutes in length.

Each session will start with a greeting and a gathering prayer before moving on to a discussion around the value for that month, an animated Bible story, an iSingPOP dance routine and finishing with the prayer activity (some of these require worksheets (provided) or other resources. Please see the accompanying Guidance Notes for further details) and the Lord's Prayer.

There may be times during some of the sessions that you need to pause the video, either to facilitate a short discussion or to complete an activity. These times are clearly signposted during the video and shouldn't disrupt the flow of the session.

The KS1 and KS2 versions contain broadly similar content, with a little extra content and sometimes a differentiated prayer activity for KS2. A year 2 class may appreciate the additional humour in the KS2 version, and EYFS may only wish to watch the Bible story animations early in the academic year. Please do use the videos entirely as you see fit and at your discretion.

A template is provided where you can 'bookend' the sessions with a welcome/closing message from a key person. This can be found with the other resources and can be used at your discretion.

If you have any questions or comments please email office@isingpop.com.
