Year 2 Autumn 2 Maths Activity Mat 6 Answers

Section 1

How many tens are in these numbers?

1 ten

4 tens

2 tens

Section 2

Draw the arrow after a half turn.

Section 3

Benny has 5 football cards.

Lee has 2 more.

How many cards does Lee have?

7 cards

Section 4

Estimate which bag is heavier.

B

Section 5

Calculate:

ten subtract three =

seven

nine add four =

seven

Section 6

How many ears are there altogether?

8 ears

Section 7

Work this out in your head:

I have 15 beads. I lose 2. How many do I have left?

13

Section 8

I want to buy a sweet for 9p but these are the only coins I have in my purse. Draw the extra coin I need so I can buy the sweet.

2p coin

Year 2 Autumn 2 Maths Activity Mat 6

Section 1

How many tens are in these numbers?

tens

tens

tens

Section 2

Draw the arrow after a quarter turn.

Section 3

Samir has 23 football cards.

Ali has 13 more.

How many cards does Ali have?

Section 4

Estimate which bag is heavier.

Section 5

Calculate:

twenty-five subtract six =

thirty add eleven =

Section 7

Work this out in your head:

Section 6

How many paws are there altogether?

Section 8

I want to buy a toy for 48p but these are the only coins I have in my purse. Draw the extra coins I need so I can buy the toy.

Year 2 Autumn 2 Maths Activity Mat 6 Answers

Section 1

How many tens are in these numbers?

3 tens

5 tens

8 tens

Section 2

Draw the arrow after a quarter turn.

Section 3

Samir has 23 football cards.

Ali has 13 more.

How many cards does Ali have?

36 cards

Section 4

Estimate which bag is heavier.

A

Section 5

Calculate:

twenty-five subtract six =

nineteen

thirty add eleven =

forty-one

Section 7

Work this out in your head:

I have 35 beads. I lose 6. How many do I have left?

29

Section 8

I want to buy a toy for 48p but these are the only coins I have in my purse. Draw the extra coins I need so I can buy the toy.

2p and 1p

Section 6

How many paws are there altogether?

16 paws

Year 2 Autumn 2 Maths Activity Mat 6

Section 1

Write a number on the balloons with the correct number of tens.

 + 3 = 73

 + 9 = 49

 + 8 = 28

Section 2

Draw the arrow after 2 quarter turns in the same direction.

Section 3

Yang has 28 football cards.
Usman has half that amount.
How many cards does Usman have?

Section 4

Estimate which bag is heavier.

Section 5

Calculate:

one hundred and six add ten =

one hundred and twelve subtract four =

Section 6

If there were 4 cats and 2 hens, how many feet would there be altogether? Show your working out.

Section 7

Work this out in your head:

Section 8

I want to buy a toy for £1.90 but these are the only coins I have in my purse. Draw the extra coins I need so I can buy the toy.

Year 2 Autumn 2 Maths Activity Mat 6 Answers

Section 1

Write a number on the balloons with the correct number of tens.

Section 2

Draw the arrow after 2 quarter turns in the same direction.

Section 3

Yang has 28 football cards.
Usman has half that amount.
How many cards does Usman have?

14 cards

Section 4

Estimate which bag is heavier.

B

Section 5

Calculate:

one hundred and six add ten =

one hundred and sixteen

one hundred and twelve subtract four =

one hundred and eight

Section 6

If there were 4 cats and 2 hens, how many feet would there be altogether? Show your working out.

20 feet

Section 7

Work this out in your head:

62

Section 8

I want to buy a toy for £1.90 but these are the only coins I have in my purse. Draw the extra coins I need so I can buy the toy.

5p and 10p
