

BA SPORTS Summer Camps 2020 – adapting to coronavirus

Having undertaken a wide assessment of our camps, we are now confident that we can run Summer camps, albeit with fairly significant changes to how we group children to keep them in group ‘bubbles’ through the week and additional protective measures.

Most of our camps are running but some are not so check locations pages for the latest update.

Protective Measures

We continue to review government guidance for educational and childcare settings to understand what protective measures are needed to offer a safe experience for children, parents and staff. These are the key adaptations and protective measures we will implement - these are obviously subject to change as lockdown easing progresses.

- **Camp not bookable by the day** - all bookings are now either Monday to Friday (5 day), or Tuesday to Thursday (3 days) so we can keep children in their group/bubble through the entire week. Fixed prices and fixed times for pick up and drop off. Restrictions on flexible hours.
- **No financial risk** - full credit/refund if we have to cancel camps or if anyone in your household tests positive for Covid-19
- **Reduced availability** - so we can manage groups and ensure there is enough space for all the groups to be socially distanced. Book soon to avoid disappointment.
- **Reducing maximum group sizes** to 15 for over 8's, whilst maintaining our group sizes for under 8's at 10.
- **Extended Day options not available** as we will need more time at the start and end of the day for additional cleaning requirements. Standard hours will apply so 8:30-9:30 drop off and 16:30 to 17:15 collection.

- **Modifying existing activities** to maximise outdoor space and increase distancing especially in sport and play activities, whilst making camp as fun as possible!
- **Removing some activities** that present an unacceptable risk of transmission
- **Contactless sign-in and collection** – 2m distanced queues
- **Staggered lunch and breaktimes** to keep groups separate
- **Increased hand washing/sanitising** for children throughout the day and after each activity/break
- **Increased cleaning** through the day and at the end of every day
- **Symptom awareness** and processes for anyone displaying symptoms on camp and isolation area.

We politely ask that Parents read and accept these new terms prior to sending their children into camp.
